SMARTCARS

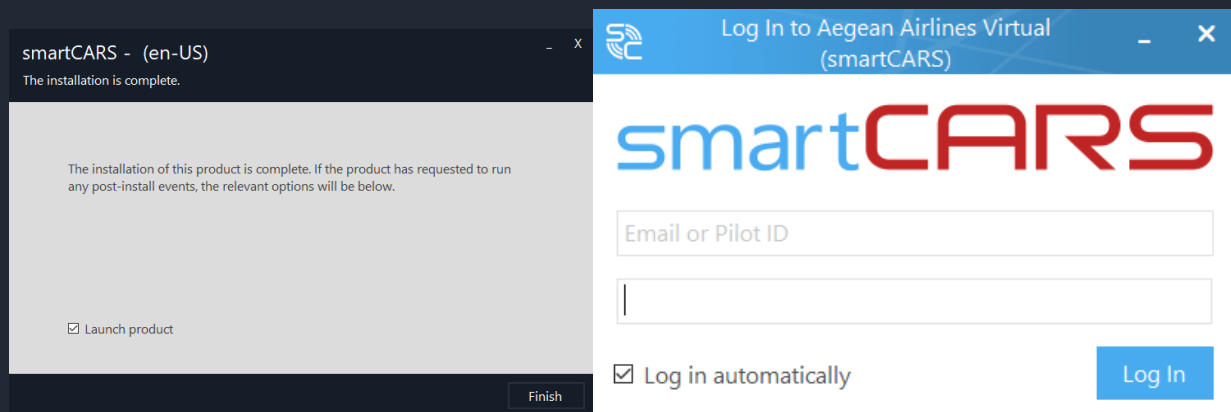

The first thing we need to do when entering Aev.gr for the first time is to download and install the smartCARS.

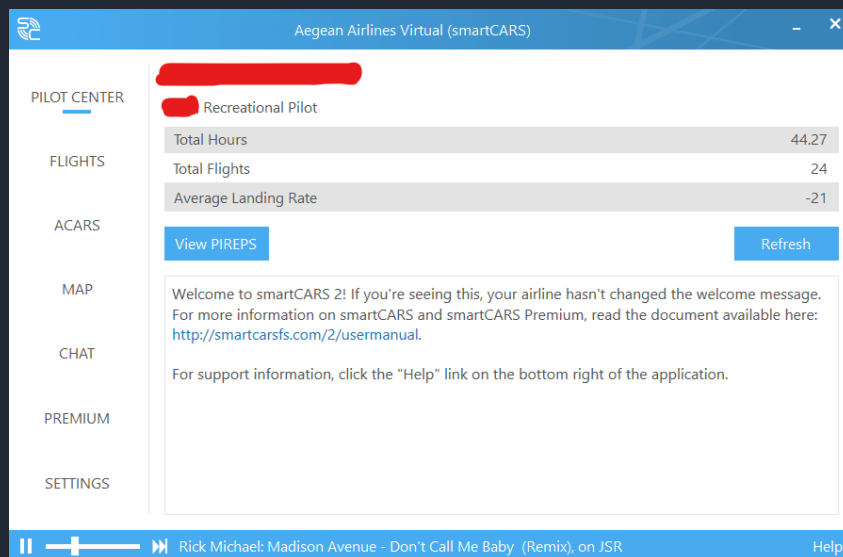

In the next menu we will see and press the option **Downloads**, next **smartCARS** and then the option **Download** and the installation file will be downloaded to your computer.

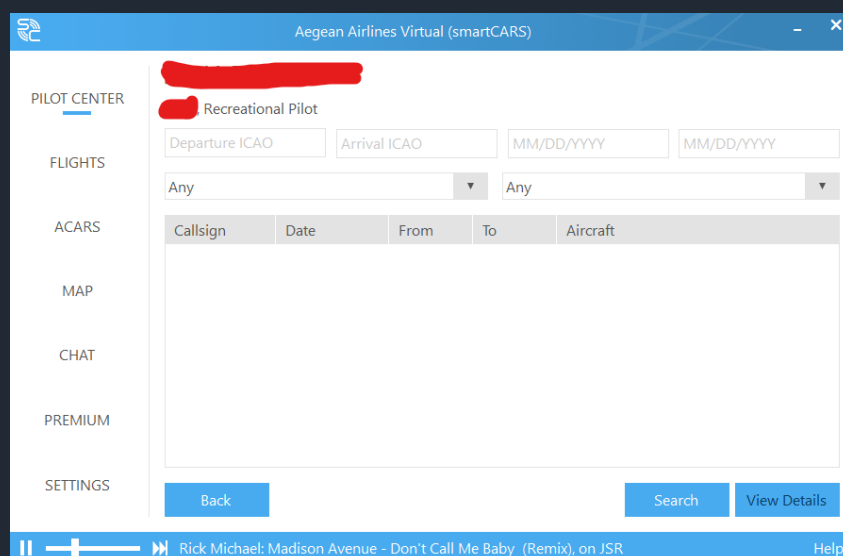

We do the installation in the location that suggests us, we select **I agree to the license agreement** and then select **install**.

Once the installation is complete, click **finish** and **smartCARS will open**. You may need to wait a while for any updates and then you will have to log in. You will need the same information that you link to the AEv website. You type the email you have registered in AEv or your callsign (only the numbers, eg 001, without the AEE) then the password that you connect to the Aev website and you press **Log In**. If you do not want to write down your credentials every time you open smartCARS, you select the option **Log in automatically**.

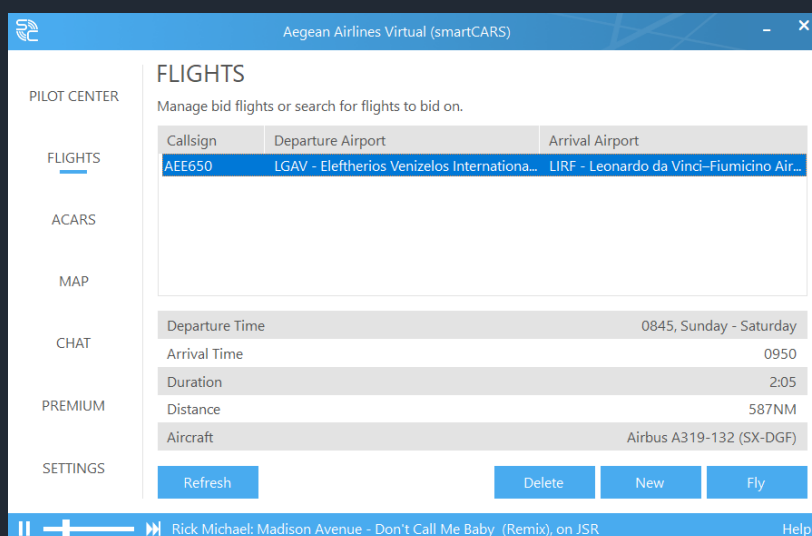

PILOT CENTER:

in the view PIREPS option you will see a history of the pireps you have made. In this case, when you enter for the first time you will have no data there.

FLIGHTS:

Every booking you make on the AEv website, it will be displayed at **FLIGHTS**. Once you have opened our Simulator and you are at the gate, you select the flight you have booked and you select **Fly**.

(information on how to make a booking in AEv can be found in the section **FLIGHT OPERATIONS**)

PIREP FILED

The PIREP has been filed. The form will now reset to allow you to fly another flight.

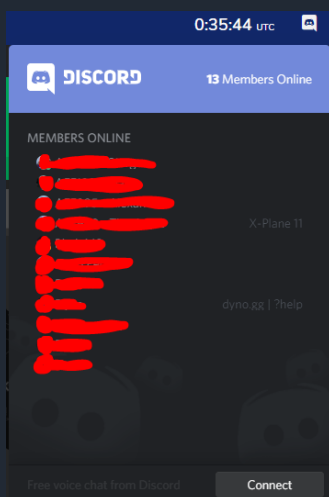

OK

And then, File Pirep to send the pirep of the flight to the Aev system, where it will be pending for its approval. You press OK and you are ready for your next flight.

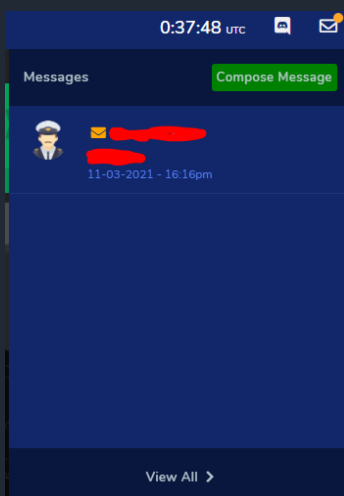

TOP MENU

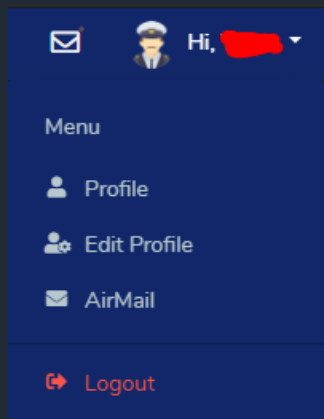

In the Top Menu you will see the time (UTC) .

The Discord server, in which you can see which Discord members are connected, as well as log in.

The messages which you see the incomings from another member or an announcement from the administration team that has been sent to all members. In case you have unread messages, you will see a notification just above the folder. From this window, you also have the ability to create a new message by pressing the button **Compose Message**, or go to the main Airmail application by pressing **View All**.

Your name along with your profile picture. Clicking on your name will show you a menu with the following options.

Profile: View your profile.

Edit Profile: Changes in our profile information.

Airmail: Μεταφορά στο Airmail τις AEv. Trasfer to AEv Airmail application.

Logout: Safe log out from the AEv website.

TOP LEFT MENU

In the Top Left Menu, you will find 4 options:

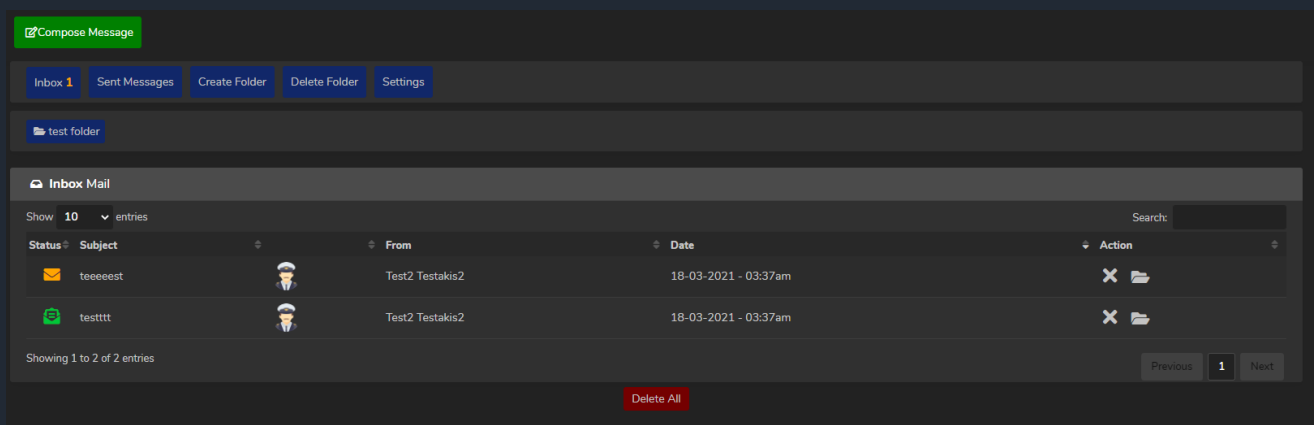

Profile: Go to your profile.

Airmail: Μετάβαση στο Airmail τις AEv. Go to AEv Airmail Application.

Logbook: Go to the flights we have made

Logout: Safe log out from the AEv website

AIRMAI

As you see in the photo, on the top there is the **Compose Message** button. By pressing it you can create a new message by selecting the pilot, writing the subject of the message and of course, the main message you want to send, by pressing the **send** button.

Inbox: List of incoming messages. You have the option to move a message to a folder you have created or delete it.

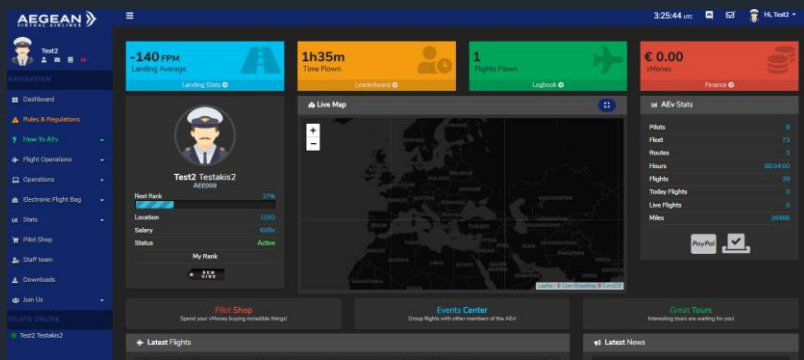

Send Messages: List of sent messages. With the help of the icons in the STATUS column you have the ability to check if the message you sent 1. has been read, 2. has been read and deleted, 3. has been deleted unread.

Create Folder: You can create folders, so that you can send them whatever messages you want. Just type the name of the folder and then click **Create Folder**. And the folder will appear below the menu, as seen in the photo above, as **<< Test Folder >>**

Delete Folder: You can delete any folder you do not want. Select the folder and press **Delete Folder**. In case you delete a folder that contains messages, they will be automatically transferred to the inbox folder.

Settings: Send a message to your email when you have a new message on the Aev website, if you wish. Select YES or NO and then press **SAVE**.

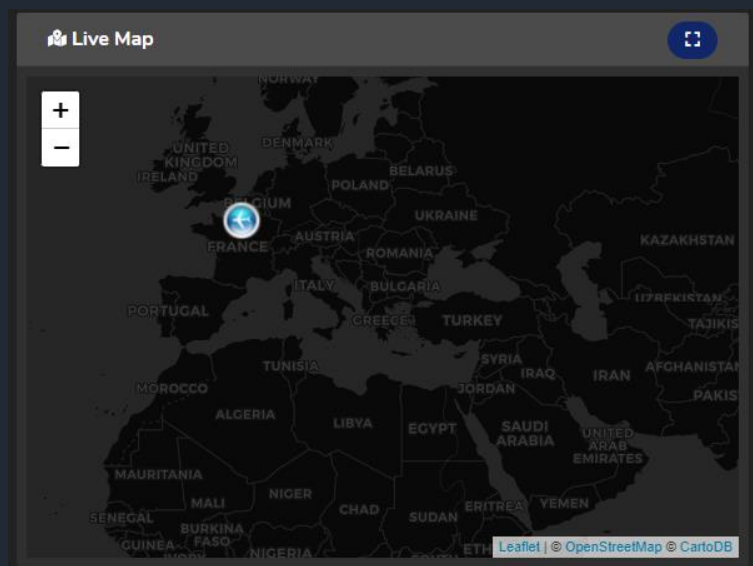

DASHBOAR

Dashboard is the home page of the site. There we can see:

Basic information about our profile.

Progress bar to the next rank.

RULES &

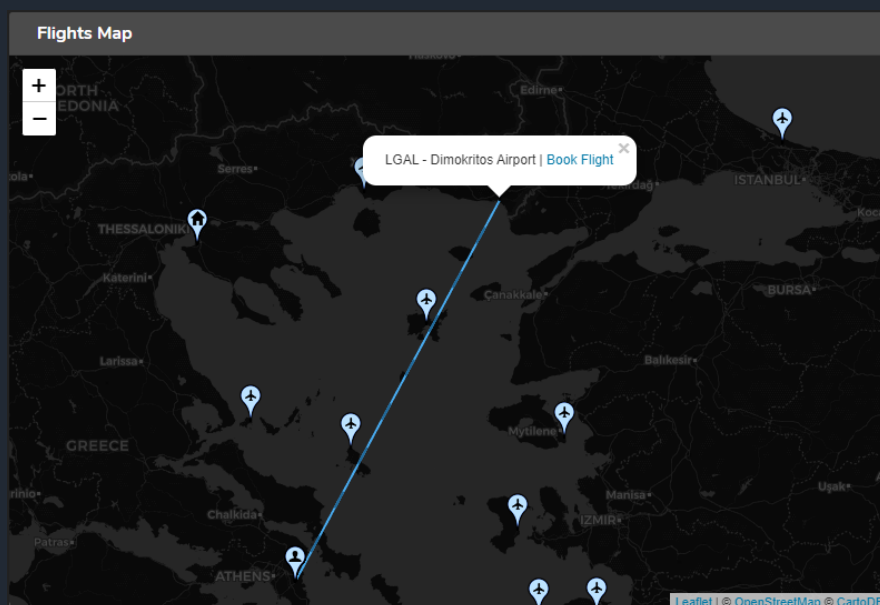

Aegean Virtual Airlines Rules & Regulations must be read by all pilots. In case a pilot does not comply with them, the administration team can proceed to a final **DELETE** or **BAN** from the AEv VA without any absolute warning.

FLIGHT

SCHEDULED

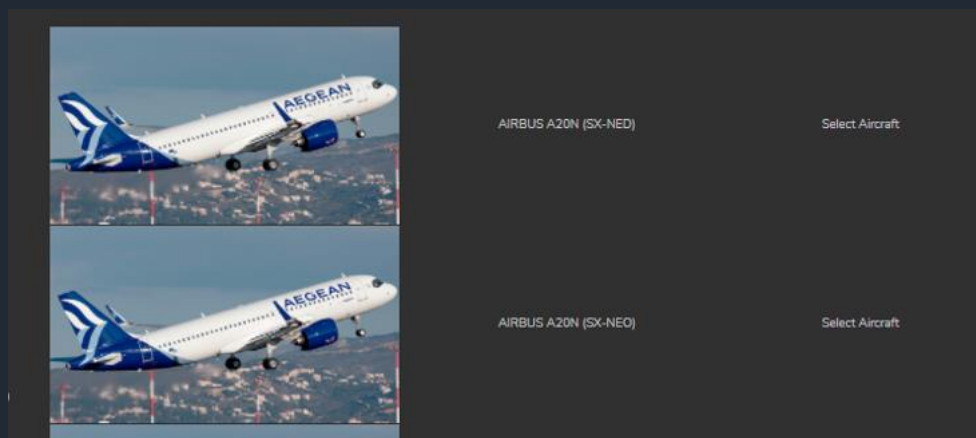

Here you can find the available scheduled flights from the hub you are located, based on the actual Aegean Airlines schedules.

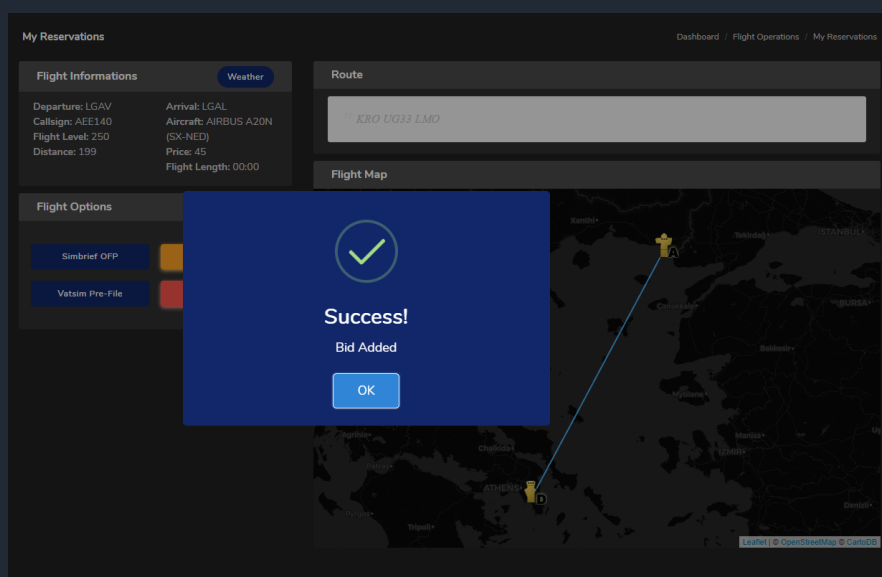

Flights Map

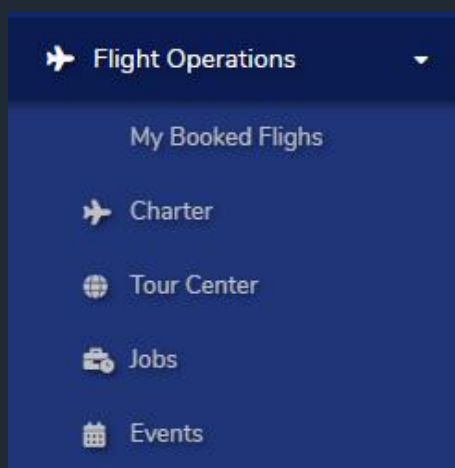

An easy way to book your next flight is on the map. For example, if we want to go to Alexandroupolis (LGAL), all you have to do is find the airport, click on it and then click on [book flight](#).

The next step is to select one of the aircraft available from your hub by clicking [Select Aircraft](#).

When we get the information that the booking has been made successfully, we press [OK](#).

Once you have made a booking, you will see how the choice [Scheduled](#) has been changed to [my booked flights](#). Here are all the bookings you have made. On scheduled flights we can not make 2 simultaneous bookings. Once the first flight is completed, then we can book the next route or return.

Flight: AEE140

Aircraft: AIRBUS A20N (SX-NED)

LGAV   LGAL

Distance: 199 nm

Flight time: 00:49

Flight Level: 25000

Ticket Price: 45 €

Manual PIREP

Cancel Booking

Route

KRO UG33 LMO

Looking at our booking, we will see that we have 2 options.

Manual Pirep: By clicking on the manual pirep, you will be transferred to a form, where you have to fill in some data.

Manual Pirep - File a Flight Report

Pilot: 

Airline: AEE - Aegean Virtual Airlines

Flight Number: 140

Departure Airport: LGAV - Eleftherios Venizelos International Airport

Arrival Airport: LGAL - Dimokritos Airport

Aircraft: AIRBUS A20N - SX-NED

Fuel Used: Enter fuel used in lbs

Flight Time: Enter in format HH:MM (example 3:45 = 3 hours and 45 minutes)

Route: KRO UG33 LMO

Enter the route flown, or default will be from the schedule

Comments: 

If you dont write a good reason for this manual pirep, will be rejected !

Submit

Aegean Virtual Airlines (AEV) is strict when it comes to Manual PIREPs. In order to submit such a PIREP, there must be a serious reason, which must be explained in detail. It is at the personal discretion of each Validator to evaluate the reason for the submission and decide to accept or reject this Manual PIREP.
Η Aegean Virtual Airlines (AEV) είναι αυστηρή στο θέμα των Manual PIREPs. Για να στείλεις κάποιο αυτόματο PIREP, θα πρέπει να υπάρχει σοβαρός λόγος, ο οποίος θα πρέπει να εξηγηθεί λεπτομερώς. Είναι στην προσωπική κρίση του κάθε Validator να κρίνει την αιτιολόγηση και να αποφασίσει αν θα αποδεχτεί ή όχι αυτόματο PIREP.

As you will see the system will fill in most of the form elements. You will only need to complete the following: Fuel Used (Fuel used to complete the flight), Flight Time Route (Total flight time) and finally Comments (the reason the manual pirep function is used)

Aegean Virtual Airlines (AEV) is strict on Manual PiReps. In order for someone to send such a PiRep, there must be a serious reason, which must be explained in detail. It is at the personal discretion of each Validator to evaluate the reason for submission and decide whether to accept or reject this Manual PiRep.
